

A person is seen from behind, standing on a mountain peak and looking out over a vast, hazy landscape at sunset. The sky is a mix of dark and light tones, and the mountains in the distance are silhouetted against the light. The person is wearing a dark jacket and has their hands in their pockets. The overall mood is contemplative and serene.

# SISLON

The better way to ensure secure life

# Problems faced by people in ambulance

Delay of ambulance to hospital main cause

Heavy traffic congestion

Irresponsible citizens

Route problems

Irresponsible traffic police

# Problems faced by people in ambulance

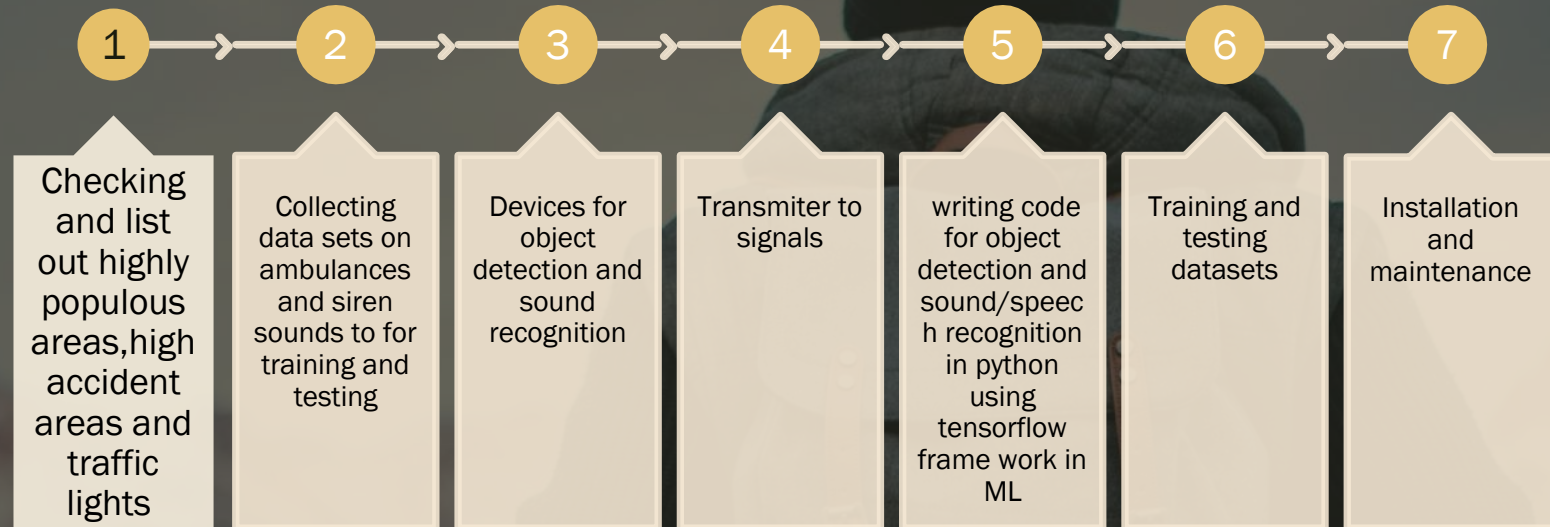

we can solve the problem by detecting siren sound and image by setting devices in highly populous areas, high accident areas and near traffic lights.

In case of patient in ambulance, we can detect the ambulance occurrence and send the signal to near traffic police to clear the traffic and make certain sound near traffic light to ensure the way to ambulance.
